GitHub: https://github.com/019shrutii Mobile: +91-8210394279

Skills

- **Languages**: C, C++, Python, Java
- **Python, Web & ML Technologies:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, XGBoost, HTML, CSS, JavaScript
- **Developer Tools:** NetBeans, Visual Studio Code, Git/GitHub
- **Core Competencies:** Data Structures & Algorithms, OOP, DBMS, Front-End Development
- **Soft Skills**: Problem Solving, Team Collaboration, Critical Thinking, Leadership

Projects

Air Quality Analysis Dashboard | **Dec' 2025**

- Developed an interactive Power BI dashboard to analyze air pollution trends and AQI levels using structured environment-
  -al data, enabling clear understanding of pollution patterns over time.
- Designed dynamic charts, KPI cards, and filters to visualize major air pollutants, allowing users to easily explore and compare data across different periods.
- Improved data-driven analysis and decision-making by presenting clean, insightful visualizations that highlight critical pollution levels and trends.

Tech: Power BI, DAX, Microsoft Excel, Data Cleaning, Data Visualization, KPI Analysis

Violence Reduction Dashboard-A data driven Analysis of victim demographics | Apr' 2025

- Conducted an in-depth analysis of victim demographics and crime patterns, focusing on gender-based violence and gun-related offenses to understand social risk factors.
- Developed interactive dashboards using charts, KPIs, slicers, and heatmaps to clearly visualize high-risk regions, trends, and vulnerable population groups.
- Enabled data-driven policymaking by transforming raw crime data into actionable insights to support strategic decisions by policymakers and law enforcement agencies.
  Tech: Microsoft Excel, Pivot Tables, Charts, DAX, Data Modelling

Stock Trend AI- Supervised Learning using Google Stock data | Apr' 2025

- Analysed victim demographics and crime trends, focusing on gender-based violence and gun-related offenses to understand underlying patterns and disparities across regions.
- Applied data preprocessing, feature scaling, PCA, and cross-validation; evaluated regression models using RMSE, MSE, and R^2 for performance accuracy.
- Delivered reliable trend predictions supported by clear visual insights, enabling data-driven financial interpretation and better decision-making.
  Tech: Python, Scikit-learn, Pandas, NumPy, Matplotlib, XGBoost, PCA

Summer Training

Fundamental of Data Structure: Learn, Apply and Build Projects(LPU) | Jul' 2025

- Strengthened understanding of core data structures and algorithms by implementing them from scratch in C++.
- Enhanced analytical and problem-solving skills through hands-on coding of operations like searching, sorting, and traversal.
- Applied DSA concepts to build a mini–**Student Management System** (java project) with features for registration, attendance, and grade tracking. |
  Tech: C++, Java, MySQL, JDBC, Swing (GUI), NetBeans

Certificates

- Springboard – Generative AI & Computational Theory **|** Aug' 2025
- NPTEL – Cloud Computing IIT Kharagpur **|** May'2025
- Coursera – Computer Networking & Computer Design Specializations **|** Oct'2024

Extra-Curricular Activities

- **Binary Blitz – Web Development Hackathon:** Secured Top 10 Rank | Mar' 2024
- **Ashray Ashthali Sevashram** - Child Labour Rights and Education **|** Jul' 2024

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - *Computer Science and Engineering;* ***CGPA: 7.96*** *Since Aug' 2023*
- **Holi Mission Secondary School** Patna, Bihar
  Intermediate*;* ***Percentage: 90.6%*** *Apr' 2021 – Mar' 2022*
- **Dr. D Ram DAV Public School** Patna, Bihar
  Matriculation; ***Percentage: 89.4%*** *Apr' 2019 – Mar' 2020*
